Siddhant Shah

BCA Student | Full Stack Developer (MERN Stack)

Email: siddhantshah632@gmail.com   **Phone:** 7047711606   **Portfolio:** Portfolio   **GitHub:** GitHub

Profile Summary

Aspiring Full Stack Web Developer with a strong interest in web design. Passionate about creating dynamic, responsive, and user-focused web applications. Skilled in building secure full-stack solutions with real-time communication, authentication, and smooth UI experiences. Always eager to learn, optimize, and deliver scalable web systems.

Skills

- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, Framer Motion, GSAP
- **Backend:** Node.js, Express.js, MongoDB
- **Others:** REST APIs, Authentication, Role-Based Access, Realtime Chat, MVC Architecture, Responsive Design

Projects

Tron – Bug Tracking System (Visit Project**)**

- A comprehensive bug tracking and project management platform featuring:
- Secure JWT-based authentication and role-based access control
- Real-time chat for seamless communication
- Mobile-friendly and responsive UI with glassmorphism and Vanta.js background effects
- Interactive dashboard with ticket analytics and project overview
- Ticket creation, assignment, and progress tracking

Retro Bus – Online Bus Ticket Booking System

- An online platform for easy and automated bus ticket booking and scheduling.
- Built dynamic seat booking and route scheduling using Node.js and MongoDB.
- Implemented user authentication and booking history tracking.
- Added admin features for managing buses, routes, and user data efficiently.
